INCOMING
BOARD
CHAIR

My fellow Chamber members –

I am so grateful to be serving as your Chamber Board Chair in 2025. By serving in this role, I follow the patient and thoughtful leadership of 2024 Chair Yvonne Hall, who helped the Chamber grow and thrive this past year. We are grateful for Yvonne, and thank her for years of commitment and dedication to the Chamber!

Every step forward our community takes is important. In April 2025, our Independence voters will be asked to consider a general obligation bond to improve public safety, upgrade transportation, and enhance our parks and historic sites; all of which are critical for business. The Independence Chamber of Commerce is a trusted source of information for Independence residents, and we must raise our voices in support of this long-overdue effort. Successful and prosperous cities must invest in themselves, and it is time for Independence to make a generational investment to pave the way for a brighter future.

In my professional role as President & CEO of Community Services League, our work intersects every day with business. We train workers for better careers, help neighbors access housing, create access for lending and financial products, build stability for a strong future, and much more. When our local business climate is strong, neighbors are strong. That is why I'm thrilled to serve as your Chamber Board Chair.

I have lived in Independence for the last 40 years, and am looking forward to our bicentennial celebration in 2027. I am at a stage of my life where I ask, "What about my kids?" My sons are 13 and 10 years old, and I want to help create a community that they will be proud to call home when they are adults. Let's work together to build a strong and resilient community.

As you are planning for 2025, I hope you will consider being an active member of the Chamber. We are stronger with you.

Sincerely,
Doug Cowan
2025 Board Chair, Independence Chamber of Commerce

“Let's work together to build a strong & resilient community”

Jan/Feb/Mar 2025

Our Legislative Agenda is developed by the Public Policy Committee and communicates the Chamber's positions on issues at the state, local and federal levels of government. Working together with various legislative organizations helps promote public policy decisions that reflect the priorities of the Independence business economy. Below is our stance on our economy's pressing issues, as of January 2025.

EDUCATION	PRIORITY	MONITOR & SUPPORT	ONGOING SUPPORT
Continue to support full funding of Pre-K education and the A+ program through the foundation model.		★	
Support legislation increasing the bond capacity of public-school districts from 15% to 20%.			★
Support continued full funding of education transportation and foundation formula.		★	

ECONOMIC & WORKFORCE DEVELOPMENT

Monitor discussion regarding improvements to the Truman Sports complex.		★	
Support an increase in funding for Missouri Technology Corporation.			★
Support reasonable tax credit programs for historic preservation, affordable housing, job creation, workforce development, youth services, and education as necessary incentives for the community.			★
Oppose any changes to economic development tools such as Community Improvement Districts (CIDs) that would hamper development and redevelopment.		★	
Support balanced economic development in partnership with the City and local taxing entities to ensure Independence can remain competitive in attracting jobs and capital investment.		★	
Support the release of ARPA funds as recommended to the Jackson County Legislature.	★		
Business owners recognize that accessible and affordable housing options are crucial to attracting and retaining a skilled workforce. We support growing access to affordable local housing options through increased state appropriations for key housing and community development programs as well as other state and federal incentive programs for the creation of affordable local housing.		★	

INFRASTRUCTURE

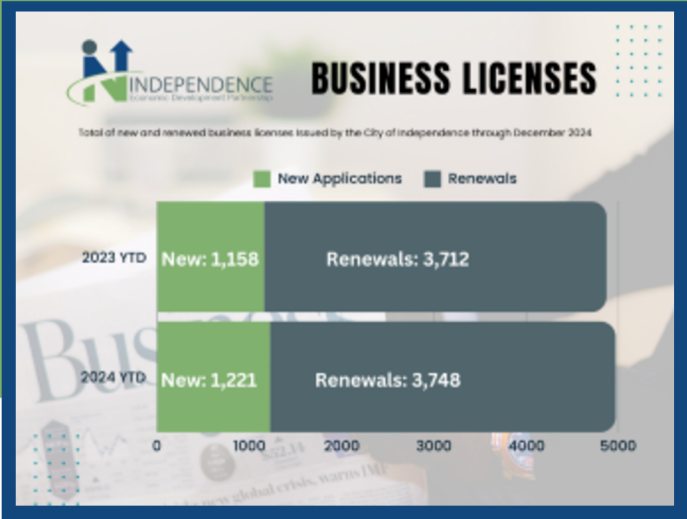

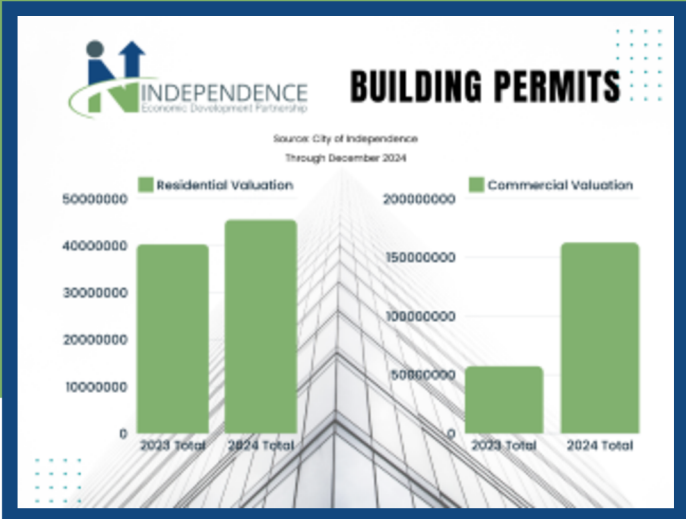

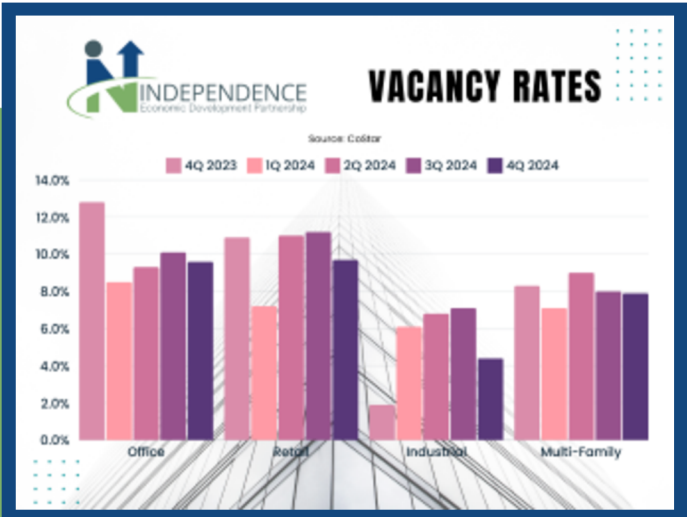

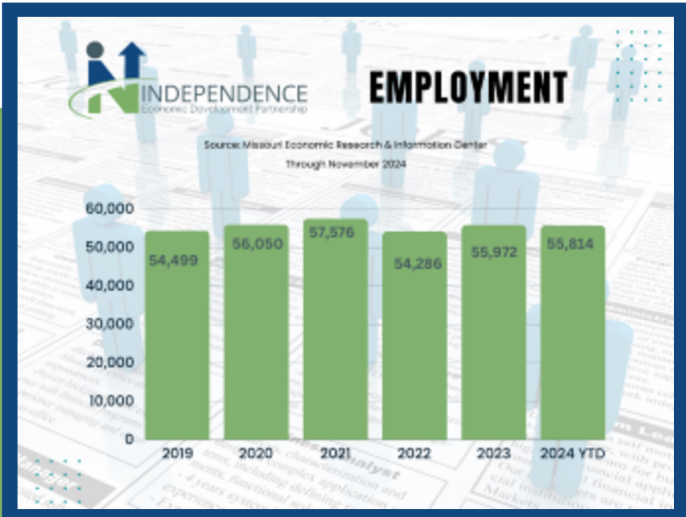

Support funding from any state and federal infrastructure program to provide funding for bridges, roads, transit, commuter rail, and pedestrian trail options in Eastern Jackson County including Missouri Hwy 7.			★
Support the City of Independence putting a general obligation bond issue on the April 2025 ballot.	★		
Explore new governance structure for Independence Power and Light and other City owned utilities.	★		

HEALTH & HUMAN SERVICES

Expand the MOABLE Program through supporting the ABLE Age Adjustment Act.	★		
Support for increased funding for mental health services in Independence and Eastern Jackson County.	★		
Childcare is a pivotal statewide workforce and economic development issue. Parents' entry or re-entry into the workforce is often hindered by childcare provider shortages. Missouri should increase the accessibility, availability, and affordability of high-quality childcare.		★	

GOVERNMENT REGULATIONS

Support legislation that would reinstate municipal court's ability to enforce and assess fines for violations of minor traffic offenses including the suspension of licenses for offenders who fail to pay court fines and/or appear in court and to place the limit of the fine amount to \$500.00.	★		
Oppose election law changes that would alter election dates, filing deadlines, partisan municipal elections, and early voting/absentee voting.	★		
Support the streamlining process of health inspections between Jackson County, Kansas City, and the City of Independence.	★		
Support "Clean Slate Missouri" which would automatically seal or expunge the criminal records for certain non-violent offenses.		★	
Opposition to legislation that takes local control away from municipalities in regard to right-of-way management and pole attachments.		★	
Opposition to any reductions, caps, or altering of the local sales tax rate.		★	
A safer Missouri is a stronger Missouri. We support efforts to reduce crime and enhance public safety. The state should dedicate adequate funding for public safety to address our law enforcement staffing shortage and enact innovative tools to help combat crime.		★

Elevating Custom Engineering to New Heights

It has been my honor to interview some of the most dynamic, interesting, and business-savvy people in the Independence area! Today, I am thrilled to introduce you to Joe Davis, CEO and owner of Custom Engineering, who exemplifies these qualities perfectly.

As part of my responsibilities at the Independence Chamber, I visit our members to demonstrate our continual support for them and their businesses. From the first moment I met Joe Davis, I found him to be a gracious and kind business owner. His life story is fascinating, and it is this unique journey that ultimately led him to own Custom Engineering and expand the company to new heights.

Joe was born in Topeka, Kansas, but his military family moved to Oklahoma when he was ten. He graduated from the University of Oklahoma with a Bachelor of Science in Electrical Engineering. Upon graduation, Joe was immediately hired by the 3M Corporation in Minnesota, where he worked in their technical services lab focusing on product development and testing. Over the years, Joe and his family moved several times, including to Denver, Colorado, and Kansas City.

In 1999, after thirteen years with 3M, Joe had the opportunity to purchase Custom Engineering, located in Independence, Missouri. He and his family relocated to the area, and he also pursued and earned an Executive MBA from the University of Phoenix. Joe shared that he always aspired to be a business owner, driven by a desire to have more control over his business destiny.

Joe's entrepreneurial spirit emerged early in life. At just six years old, he earned 30 cents per week by taking the trash to the curb for his neighbor. He calculated his fee based on the cost of a bag of candy—29 cents plus a penny for tax. This early venture taught him a valuable lesson when he was fired after asking for a raise to 50 cents per week. Undeterred, Joe continued to explore money-making opportunities, whether selling Matchbox cars, flower seeds, or mowing lawns. On his best day, he earned \$28 by mowing 14 yards at \$2 each!

Custom Engineering is a mechanical and electrical engineering design and consulting firm that specializes in "anything vertical." The company works on a variety of projects, including hospitals, schools, transportation centers, multifamily housing, wastewater treatment facilities, and designs for city, state, and federal agencies. Collaborating with architects and engineers, Custom Engineering focuses on systems for buildings, particularly HVAC and power distribution.

Joe's determination to own a business stems from his desire to have more control over his professional destiny. However, he recognizes that with this freedom comes great responsibility, especially in providing for the employees he has hired. Today, Custom Engineering operates from four locations: Independence, Columbia, and St. Louis, Missouri, as well as their newest office, which opened in Overland Park, Kansas, at the end of 2024.

A fifty-year-old company, Custom Engineering has been under Joe's leadership for twenty-five years. He has built the company on core principles: putting the client first, respecting the client's budget, simplifying the client's experience, and assembling the most talented team to meet each project's demands.

Joe's family includes his wife, a special education middle school teacher in the Blue Valley School District, and two grown sons, ages 27 and 30, who both work in the healthcare field and reside in Atlanta, Georgia. Joe credits his perseverance and practical mindset, honed during his studies in electrical engineering, as keys to overcoming challenges and continuously improving. Even as a child, he embraced the thrill of problem-solving, a passion that remains central to his approach today.

Joe has also dedicated himself to combating prejudicial stereotypes by working harder and achieving success. Custom Engineering has been recognized for the past twenty-five years as one of the top minority-owned businesses by both the Kansas City Business Journal and Ingram's Magazine. While honored by such accolades, Joe is humble about his achievements, emphasizing that he wants Custom Engineering to be recognized for its excellent, professional work and the exceptional service it provides to its clients.
